

LET'S DANCE

(D)

Let's dance, let's dance my (G) darling
Let's (A) dance--and have no re (D) grets
Let's dance once more (G) like we did before
Let's (A) dance—and try hard to (D) forget

Once-he was--a young (G) soldier
(A) Fighting--in a far--distant (D) war
At home--his new wife--was (G) waiting
With (A) their--little baby--by the (D) door

Break—Last line only)

On a mission--he saw---a young mother
Clutching-- her precious--baby son
He thought--of his own--little family
Was the day--that old war--sent him home

(Break---Last line only)

His pain is slowly fading---he's at home now
With brand new legs---he'll walk again
Holding his darling---close beside him
He whispers--I love you—let's try again
