

Beyond the Prison Walls of Time

(D)

Just keep calling softly gently--take my (G) hand as I reach (D) for you
Be (G) yond the prison walls of (D) time—be (G) yond the prison walls of (D) time

In the black dawn of the morning--I keep (G) hearing your sweet (D) voice
Telling (G) me you love me even (D) more--stubborn hands hold on tightly
To your (G) worn faded (D) picture—a (G) gain I dance across an empty (D) floor
A (G) gain I dance across an empty (D) floor

(CHORUS)

I see your shadow on the wall—I am right here waiting for you
Your love is soon to be all mine—our hearts will beat together
And our love will be forever—beyond the prison walls of time
Beyond the prison walls of time

(CHORUS)

Now I'm sensing our reunion—you are getting ever closer
I smell perfume you called mine—hold me close let me kiss you
Take my hand and I'll go with you—beyond the prison walls of time
Beyond the prison walls of time

(CHORUS)
