

The Lemonade Blues

(D)

Got them lemonade blues boys—got them lemonade (A) blues
Laying in the shade—drinking lemonade got them lemonade (D) blues

Bull frog sitting on the bank—little duck swimming in the (A) pond
Laying in the shade drinking lemonade—thinking I ought to get (D) home
But tomorrow is another day hey—and tonight is just another (A) night
If I go home to help with the chores--it might break out in a (D) fight

(CHORUS)

Little woman chopping up firewood—hound dog barking up a tree
Fresh scrubbed clothes hanging on the line—flapping in the summer breeze
The old cows they all need a milking—and the hogs all want to get fed
I wish sweet thing would hurry with the chores—I'm tired and want to go to bed

(CHORUS)

To show her how much I love her—I picked her a big bouquet
If she don't come and get it soon—I'll just have to throw it away
She always wants to be with me—but what am I supposed to do
Little darling can't be with me—there no room in the shade for two

(CHORUS)
