

He Only Saw Them in His Mind

(G)

Darling would you get that old (C) album... (D) off the shelf just once (G) more
You know how I love those old (C) pictures...it (D) seems...I love them more and (G) more
Ah! (C) This time let's not be in a (G) hurry...let's take...the time...to remi (D) nisce
It (C) seems we saw them only (G) yesterday...perhaps there's (D) something I've (G) missed

(Music Break)

Thank you my darling that's the last one...thanks for sharing he would say
The old album goes back on the shelf now...we might get it down another day
She never had the heart to tell him...the pictures were old and fading away
You couldn't even recognize the pictures...the old album had seen its better days

(Music Break)

Every day she took the old album...off the shelf one last time
With every picture told the story...but he only saw them in his mind
Every day she took the old album...off the shelf one last time
With every picture told the story...but he only saw them in his mind
